SALES KIT

DATA SCIENCE WORKSTATIONS:
ENTERPRISE CLASS SOLUTIONS FOR DATA SCIENCE DEVELOPMENT

Built by select PNY workstation partners on an unmatched foundation of NVIDIA RTX with GPU accelerated CUDA-X AI data science software, NVIDIA-powered data science workstations deliver a new breed of fully integrated workstations for data science.

QUALIFYING QUESTIONS FOR POTENTIAL DATA SCIENCE WORKSTATIONS CUSTOMERS:

1. **Is your organization using machine learning or deep learning?**
   NVIDIA-powered data science workstations are powerful platforms for machine learning and deep learning projects.

2. **Are you using data science tools?**
   Data scientists can improve the performance of their projects by 10x or more by taking advantage of the GPU acceleration provided by NVIDIA-powered data science workstations

3. **Are you using PCs, laptops, or servers for data science projects?**
   Data science workstations enable GPU accelerated data science workflows with CUDA, Tensor Cores, and unprecedented GPU memory capacity to offload server-based data prep, training, and visualization.
